

## Steve Artz

Steve Artz is a Master Carpenter by trade and lives in Encinitas, California. He discovered vitreous enamel while attending San Diego State University, San Diego, California, in 1978. He is well known for his innovative tools and techniques to manipulate metal and the application of vitreous enamel to the surface of metal. Steve is also known for his inventive workshops and installations throughout the country.

Steve is an exhibiting enamelist and his work has been shown locally, nationally, internationally and in print media. His pieces are in collections around the world. He has been involved in enamel education as past president of both Enamel Guild: West, San Diego Enamel Guild, and past trustee of The Enamelist Society.
